Managed Service Provider (MSP) Solutions

Helping companies transform their contingent labor plan from a tactical approach into a strategic solution

The Bartech Group (Bartech) is a recognized expert in the development, implementation and management of workforce management solutions. Our Managed Services Provider (MSP) solutions address and eliminate the many risks associated with decentralized, manual processes for procuring contingent staff.

Bartech is one of the most respected talent acquisition management firms in the industry. Our philosophy is simple: provide strategy, direction, tactics and enabling technology in a way that aligns recruiting efforts with custom corporate strategic goals.
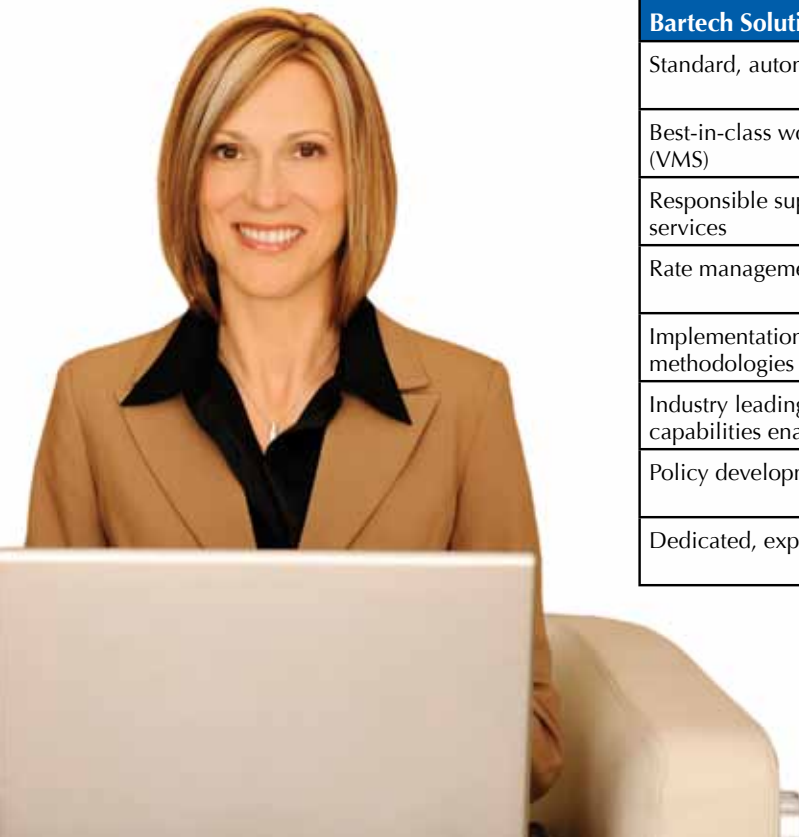

Program benefits can be categorized into four main areas:

1. Improved processes and policy compliance
2. Cost savings opportunities
3. Business intelligence to assist decision making
4. Risk mitigation

Services Overview

Bartech is a pure play, MSP that focuses on program delivery, cost savings, risk mitigation, business intelligence and process improvement. We have the breadth and depth of experience to address even the most complex client environments. We have been providing MSP staffing solutions since 1998, and have developed a business model that allows us to work with our clients to determine the right solution based on their current environments. Our solutions provide clients with the return on investment that helps their organization reach its business goals. Our solutions include:

Bartech Solution	Outcome/Results
Standard, automated processes	Improves worker quality and cycle time
Best-in-class workflow automation tools (VMS)	Ensure process compliance
Responsible supplier management services	Improve performance
Rate management practices	Drive down direct and indirect costs
Implementation and change management methodologies	Ensure program success
Industry leading, robust reporting capabilities enabling clients	Track and monitor spend
Policy development and implementation	Manage operational, financial and legal risks
Dedicated, experienced management	Drive program performance

Bartech's Unified Talent Acquisition Platform

Bartech will implement an MSP/VMS strategy to address the unique demands presented by servicing different workflows and processes - providing clients with a common platform to manage contingent labor.

Bartech's Unified Talent Acquisition Platform

Our model establishes governance that provides organizations with a scalable, single, global interface for all contingent labor, supporting multiple workflows for:

- Staffing Solutions for all labor categories in all geographies
- Statement of Work (SOW) facilitation and compliance
- Services Procurement with Identity Management
- Independent Contractor and Payroll Solutions

Our programs are designed to be a service center with expertise, to help each manager through the process of sourcing and managing contingent labor. The goals are to deliver a program that is easier to go through, not around; by improving the time to fill and the quality of the resources.

Organizations are able to focus on their core business rather than the complexities involved in managing an indirect workforce, supply base and related contractual requirements. As programs mature, Bartech continues to identify areas for potential cost savings and process improvements, while adjusting to a client's changing business environment.

Competitive Advantages

- Unified Talent Acquisition Platform with our Functional Centers of Excellence approach to service
- Innovative rate management methodology with our proprietary Accu-Rate calculator tool
- Broad client experience
- Flexible service models
