Delphi Presents Bartech with Pinnacle Supplier Excellence Award

SOUTHFIELD, Mich.— May 17, 2017— The Bartech Group (Bartech), an Impellam Group plc brand, announced it has been awarded the 2016 Pinnacle Award for Supplier Excellence from Delphi. This is Delphi's most prestigious and highest level of achievement awarded to a supplier. Bartech, a leading global staffing and managed service provider (MSP), was recognized for its contributions to Delphi's Excellence culture and commitment to quality, value and cost performance.

The award was presented to Bartech at a ceremony held during the Delphi Global Supplier Conference on the 17 of May in Krakow, Poland, where Delphi recognized 19 suppliers from around the globe.

"Bartech is highly dedicated to our effective and collaborative partnership with Delphi, and it is a great honor to once again receive this recognition," said David Barfield, Chief Executive Officer of Impellam North America. "As an award recipient, we are pleased that we have been able to successfully develop initiatives and assist in cost reduction efforts for Delphi's workforce management and staffing solutions. We look forward to growing our partnership for many years to come."

Evaluated on various criteria—including maintaining an effective commercial relationship with Delphi and supporting its code of conduct, diversity and corporate social responsibility policies and requirements—this is Bartech's fifth time receiving the Pinnacle Award for Supplier Excellence. For nearly 15 years, Bartech has received numerous honors from Delphi, including multiple Top MBE Supplier recognitions, the Supplier Spotlight award and the Tier 1 Supplier of the Year award.

"Suppliers such as Bartech play a significant role in Delphi's success," said Sidney Johnson, senior vice president, Delphi supply chain management. "At Delphi, it isn't just about what we make, but what we make possible – a future where vehicles are safer, greener and more connected. Thank you for playing an important role in creating that future."
